<b>2. Background (15 points)</b> - This part should include a description of the target group of the programme/project, an	

explanation as to the needs which motivated its establishment, and supporting evidence. If there is a need to include additional complementary documents, they can be attached to this form and sent. Equity concerns will be taken into account in the grading of the application throughout.

**3. Conceptualization and design (30 points)** - This section should explain the conceptualization and design of the programme, and in particular the programme approach/methodology (including structures and mechanisms), financing and human resource capacity, stakeholder involvement (who are the stakeholders involved, why and how are they involved?). It is essential to have a clear rationale as to how this programme responds to the needs and context explained in the first part of the letter. This section should also explain monitoring and evaluation mechanisms, performance indicators (e.g. number of people participating in the training programme, learning outcomes) and targets. The appropriateness of the monitoring and evaluation, given the context and the candidate's possibilities, will be taken into account. Furthermore, equity considerations will be factored into the grading.

**4. Impact and achievement (40 points)** - This section shall describe the impact and achievements of the programme. These should be explained in relation to the previously identified need and context, as well as with regard to performance indicators and targets. Quantitative and qualitative aspects will be taken into account. The grading will consider efficiency and effectiveness of the programme, and will integrate equity considerations.

**5. Sustainability, problems, lessons learned, potential for replicability & future plans (15 points)** - Prize winners will be supported to further improve/extend their programme, as appropriate, and will be asked to share their experience with a view to helping other programmes improve their practice. In line with this purpose, this part should explain problems encountered, lessons learnt, programme sustainability, its potential for replicability, and plans for the future. While a successful programme may no longer be needed where it was launched, the Prize is concerned with ensuring its success can however help other teacher-related activities, in one way or another. To this end, **candidates are required to attach three proposals of ways of using the reward**, which shall build upon the mentioned outstanding practice: providing an overview of the activities and sub-activities that would be undertaken.

I certify that the information provided on both the project description and the way of using the money of the Prize is accurate.

I am committed to providing the UNESCO-Hamdani Prize Secretariat with documentation proving the proper use of the money of the Prize.
